NATURE OF RELEASE

Type of Release: Produced water and crude oil	Volume of Release: 139 bbls crude oil and 16 bbls produced water.	Volume Recovered: 45 bbls crude oil, 0 bbls produced water
Source of Release: Temporary tank overflow	Date and Hour of Occurrence 5/2/11, Hour unknown	Date and Hour of Discovery 5/2/11 10:00 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher	
By Whom? Tony Savoie	Date and Hour 5/2/11 10:51 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		

RECEIVED
MAY 12 2011
NMOCD ARTESIA

Describe Cause of Problem and Remedial Action Taken.* A temporary tank that was set to vent produced gas into in the event of high line pressure on the sales line overflowed due to the process vessels were overloaded with fluid causing the production to release into the vent tank for a period of approximately 12 hours. The problem was corrected.

Describe Area Affected and Cleanup Action Taken.* Approximately 1200 sq. ft. of caliche pad around the temporary tank was affected by the release, and approximately 4,000 sq. ft. of pasture. All of the free standing fluid was removed with a vacuum truck. The BLM granted permission to get off our easement and remove the heavily saturated soil in the pasture. Approximately 160 cubic yards of saturated soil was excavated and placed on plastic on the caliche well pad near the release site. On Monday 5/9/11 samples were collected to determine the vertical extent in the areas where the fluid had pooled. The soil samples will be analyzed for TPH and Chloride. A remediation plan will be developed in accordance with the NMOCD and BLM remediation guidelines. Note: The release volumes were based on well potential and time. Soil saturation calculations were also used to verify the release volumes.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
