Dear Mr. Etz:

I am sure you have been very busy in your attempt to clean out and work over the above mentioned well. However, I feel that the survey plats for this location which I requested in my letter to you of December 20, 1956, are long past due, and if the surveyor in Roswell is still too busy to do the job for you, I am sure you can get a surveyor out of Artesia as there are three or four located here.

If the survey plats of this well location are not in this office in the very near future, you will have to shut down operations. Thanking you for your cooperation in regard to this matter, I am
