

Oil Conservation Commission

321 Carper Building

Artesia, New Mexico

June 30, 1956

Mr. H. W. Ets, Jr.
Box 992
Roswell, New Mexico

Dear Sir:

This letter will acknowledge receipt of your Form C-101, Notice of Intention to Drill, and survey plats for a wildcat well located 1980' FNL and 660' FEL of Section 27-13S-24E, Chaves County, New Mexico.

Although you have stated on the form that there is a plugging bond on file with the Commission, we do not have a bond in the name of H. W. Ets, Jr. for this location, but we do have a one-well bond for Ets Brothers on the No. 1 Lodewick which was located 1480' FNL and 740' FEL. It will be necessary for you to submit a plugging bond in the name of H. W. Ets, Jr. before we can approve your Notice of Intention to Drill.

Yours very truly,

OIL CONSERVATION COMMISSION

Oil Conservation Commission

Oil Conservation Commission

America, New Mexico

The Oil Conservation Commission was organized in 1935 to promote the conservation of oil resources in the United States. The Commission was established by the Federal Oil Conservation Act of 1935, which was signed by President Franklin D. Roosevelt. The Commission's primary purpose is to ensure the efficient and economical use of oil resources, both onshore and offshore. It achieves this through a variety of means, including the regulation of oil production, the promotion of research and development in oil conservation, and the establishment of oil conservation programs in various states.
