Dear Sir:

The subject lease produces water. Therefore we are requesting your approval of our disposal method pursuant to NTL-2B.

The well produces approximately 3 BWPD. The pit is unlined. The pit size is 8' x 25' and located at the wellsite.

The production interval is 944-74' in the San Andres formation.

Copy of water analysis is hereby attached.

Yours truly,

Juanita Goodlett  
Production Supervisor
