Hobbs, New Mexico

Re: W. B. Lyman, Jr. Well # 1,
Unit O, Sec. 34-10S-25E,
Chaves County, New Mexico

Dear Sir:

A recent inspection of the above location found the hole is open at the surface and is standing full of water.

In checking the well file, we find that we have not received Form C-103 on the surface casing. Also, Form C-103 and C-105 do not have the same information as to how this well was plugged. The State Engineer records have still another plugging report.

Please get this well plugged at the surface with the marker installed, submit C-103 on the surface casing, and get a correct plugging report in as soon as possible.

Very truly yours,

OIL CONSERVATION COMMISSION

Mr. W. B. Lymon, Jr., Well #1
Unit O, Sec. 34-100-232,
Chaves County, New Mexico

Dear Sir:

A recent inspection of the above location found the hole is open at the surface and is standing full of water.

In checking the well file, we find that we have not received Form C-103 on the surface casing. Also, Form C-103 and C-102 do not have the same information as to how this well was plugged. The State Engineer records have still another plugging report.

Please get this well plugged at the surface with the marker installed, submit C-103 on the surface casing, and get a correct plugging report in as soon as possible.

Very truly yours,

OIL CONSERVATION COMMISSION

W. A. Gruesz
Oil and Gas Inspector
