in 90t 7 35-10-25 and Zimmerman #3
in 90t C 35-10-25

We recommend plugging the above captioned
wells to protect fresh waters of the State of
New Mexico.

We do not see any major problems
in plugging these wells, but it looks as
though we will need to play them
by ear because the records are incomplete.

According to our records we still have
plugging done in place.

If we may be of service to you
please let me know.

RL
