### FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Well was abandoned as an oil test by Scott Stanfield and the well was purchased by the Pecos Valley Artesian Conservancy District. In May, 1940, the well was repaired after seven inch oil string had been pulled. Following work was done by the Conservancy District: Drill pipe was set at 900 feet and 8 tons of clay mud was pumped into the well at this point, mudding off all of the bottom hole. A 5 sack plug of cement was pumped in above the mud, making an effective shut off. The well was swabbed until water cleared and an automatic recorder installed by the Well Supervisor.
