Re: State Honolulu No. 1  
Sec. 36-14S-25E.SW SE

Dear Sir:

Our field representative W. A. Gressett inspected your abandoned location on the above mentioned well.

He found that you have a wooden sign nailed on top of the marker. The location of the well is supposed to be welded on the 4 inch marker or put on with a steel stencil. He also found dead men not cut.

Please attend to these matters as soon as possible and let us know when the work is completed.

Yours very truly,
