

E. H. WELLS
STATE GEOLOGIST

STATE LAND OFFICE

OFFICE OF STATE GEOLOGIST
SANTA FE, NEW MEXICO

February 23, 1933

Mr. J. D. Hunter
Box 522
Carlsbad, New Mexico

Dear Mr. Hunter:

This is a request for some information regarding the Warman Oil Syndicate Well, Section 9, T. 14 S., R. 25 E. I heard a rumor this morning to the effect that this company has recently made a new location and has commenced drilling.

It is my understanding that the well mentioned in your report of February 15th, total depth 641 feet, is the original well that was begun something over a year ago. If possible, please give me the correct details.

A search through our files fails to locate the "Notice of Intention to Drill New Well" for this well. If you have a copy of this notice in your files, please forward it to me. We will make a copy for this office and return copy to you.

EHW:F

Very truly yours,

E. H. Wells,
State Geologist.
