Re: Gulf State, Well No. 1,
Unit N, 23-10S-26E
Chaves County, N. M.

Dear Sir:

A recent field inspection indicates that the above mentioned well has been properly plugged.

Within thirty days following the completion of plugging operations on any well, a record of the work done shall be filed with this office in triplicate, on Form C-103. Such report shall include the date the plugging operations were begun, along with the date the work was completed; a detailed account of the manner in which the work was performed; the depths and lengths of the various plugs set; the nature and quantities of materials employed in plugging operations; the amount, size and depth of all casing left in the hole and the weight of mud employed in plugging the well and any other pertinent information. No plugging report submitted on Form C-103 shall be approved by the Commission unless such report specifically states that pits have been filled and the location levelled and cleared of junk. The filing of Form C-105, (Well Log) is also necessary to obtain approval of a plugging report. Please take care of the above requirements as soon as practicable.

Very truly yours,

OIL CONSERVATION COMMISSION

M. L. Armstrong,
Supervisor, District No. 2
