Re-Hanson State #1
Sec.12-10 S.-26 E

Dear Mr Armstrong:

This will acknowledge your letter of July 1, 1957, regarding the filling of pits and the Well Log Forms C-105 on our Hanson State #1 Sec.12-10S.-26E.

When this well was completed the Steinberger Drilling Company informed me that they expected to have a Caterpillar Tractor in that vicinity soon and that they would fill the pits and bill me for this work. I am contacting them and if the pits have not been filled I will arrange to have this work done at once.

We are not familiar with New Mexico procedure on wells, so if your office will send us your Well Log Form C-105 and any other requirements, we will furnish you any information requested promptly.

Very truly yours

Frank R Robinson
