Mr. Roy Rarbrough
Oil & Gas Inspector
Hobbs, New Mexico

Dear Roy:

Earl G. Leviok has started another well at the last moment. I talked to Guy Friday night and he wanted someone to inspect the well. I couldn't get in touch with you or Bob, so I inspected the well myself.

I approved the form C-101 but Mr. Levick understands that this well is in your district, and that you may change the casing program in any way you see fit. He also understands that he must have your approval before drilling with rotary tools below 2200 feet on either of his wells in Chaves County.

Very truly yours,

NEW MEXICO OIL CONSERVATION COMMISSION
