Box 686

February 16, 1951

Mr. Roy O. Yarbrough,
Oil and Gas Inspector,
New Mexico Oil Conservation Commission,
Box 1545,
Hobbs, New Mexico.

Dear Mr. Yarbrough:

Comanche Unit well No. 2 in Section 24-11S-26E,
Chaves County, New Mexico was drilled by Richfield Oil
Corporation in 1948, and a log was filed with the USGS
at Roswell on Sept. 27, 1948. The well was a dry hole,
but was not plugged at that time pending further development
on the Unit.

We later purchased the Unit and the well.
We have secured a copy of the log filed with the USGS by
Richfield, and are enclosing a copy for your files.

Yours very truly,

H. G. Ellis
