The elevation of the derrick floor above sea level is 3452 ft.

DETAILS OF WORK

(State nature of well, amount of work, or other data, show date, volume, and length of proposed casing; indicate casing jobs, cementing points, and all other important proposed work)

Vincent & Walsh, Inc. No. 1 Federal Cassidy. T.D. 9336'. No Commercial shows of oil or gas encountered. Will place cement plugs as follows: 2500'-2595' w/40 sz regular, 1500'-1595' w/40 sz regular, ground level-20' w/10 sz regular. Will set 4" marker 4 feet above ground level, 3 feet below ground level. Will weld steel plate on top of marker. Remainder of hole will remain full of mud laden fluid having properties of 40% Vis. 100, and WL 8.7 cc.

I understand that this plan of work must be approved in writing by the Geological Survey before operations may be commenced.

Company Vincent & Walsh, Inc.
