14. API NO.

15. ELEVATIONS (SHOW DF, KDB, AND WD)
CL 3451

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We propose to plug & abandon this well as follows: Set 7" cast iron bridge plug by tubing or wireline at 1580' - top perf 1607', bottom 2012'. Spot 35' of Class C cement on top of plug & set 50' surface plug w/Class C cement; cut off 7" pipe & install 4" dry hole marker. Fill in pits & clean up location. We don't propose to rip the location as we never covered it with any caliche or to rip the incoming road because it is an existing ranch road; we never put any caliche on it, just bladed it.
