DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We intend to drill a **12 1/2"** hole to **230'** and run **8 5/8"**, **20'** casing and mud cement and test for water shut-off. Then drill **8"** hole to **200'** to test the Queen Formation.
5 1/2"

Mr. Knauf with the U. S. G. S. in Artesia will be notified of any changes in casing program and prior to running a production string arrangements will be made with him to cement the surface casing in a manner satisfactory to him to protect the surface waters.
