Re: State of New Mexico Well No.
1, Unit E, Sec. 8-8S-27E,
Acme Pool, Chaves County, N.M.

Dear Sir:

I am writing you in regard to the dry hole you drilled on the above-captioned location. This well was plugged and the location cleaned satisfactorily. However, before the plugging report can be approved, we need three (3) copies of Form C-103 stating how much and what size pipe was run and how much cement was used. We also need six (6) copies Form C-105.

We are sending the necessary forms. Please take care of this at once.

Very truly yours,

OIL CONSERVATION COMMISSION
