

11/10/73

I visited w/ Paul & Kay for my telephone
 interview. I had a great time. We had a
 lot of fun. I had a great time.

He is planning on flying at 10:00. I will
be there. I will be there. I will be there.

2/13/78 — I visited w/ Paul Slayton via telephone
8:50 AM + found out that the well has 85 bbls
load water left.

He is planning on doing some dirt work
@ the btry squaring up pits. He will fence
the pits & pipe the tanks to the pits.

He is planning on kicking off the #3 well
before the end of the month + setting
2 new 210 bbl tanks. If there is
too much water being produced he will
go to the tanks with the water.
