Dear Sir:

A recent field inspection of the site of your Lou T. White et al Well No. 1, Unit H, Sec. 34-10S-27E shows that the well location has not been placed on the marker as per Commission Rules and Regulations, and there is about 50 sacks of mud on the location.

Please see that the above work is completed as soon as possible so that your plugging report may be approved.

Very truly yours,

OIL CONSERVATION COMMISSION
