Mr. Harold L Runnels P. O. Box 937 Lovington, New Mexico

> Re: State IN well No. 1, Unit N, Sec. 10-11-27, Coyote Queen Pool

Dear Mr. Runnels:

We are in receipt of Forms C-127 on the above captioned well. You requested 270 barrels allowable for the month of June. When we receive a Form C-127 the allowable changes are started the day they are received in this office. In this case the allowable change starts today, June 25, which makes six days until the end of June. Top allowable for the Coyote Queen Pool is 34 barrels of oil per day. This allowable times the six days gives you 204 barrels for the month of June instead of the 270 that you requested.

Very truly yours,

M. L. Armstrong Supervisor, District NO. 2
