Re: Fencing for water disposal pits

Gentlemen:

It has come to our attention that you have been disposing of salt water and sulfur water, produced from the Chisum field, in three large unfenced pits east of your tank battery in Sec. 13-11S-27E, Chaves County, New Mexico. Rule 313 of the Commission Rules and Regulations requires that all such pits shall be fenced in order to prevent surface damage. Your cooperation in the fencing of these pits will be greatly appreciated.

Very truly yours,

OIL CONSERVATION COMMISSION
