Re: Form C-116, GOR Test,  
Herschel L. Copelan,  
State of N. M. Well No. 1,  
Unit L, Sec. 27-11S-27E, and  
Pan American St. Well No. 1,  
Unit C, Sec. 27-11S-27E, Coyote-  
Queen Pool, Chaves County, N. M.

Dear Mr. Phillips:

On May 17, 1960 we wrote to Mr. Herschel L. Copelan requesting that he submit completion gas-oil ratio tests on the subject wells by June 1, 1960. By return mail Mr. Copelan informed us that you were now operating the wells and the request should be made to you. Rule 301 of the Commissions Rules and Regulations requires that a gas-oil ratio test be taken 30 to 60 days after the completion of a well. To date these tests have not been submitted for the subject wells and there allowable will have to be cancelled June 1, 1960 if the tests have not been submitted by that time.

If you have any questions concerning this matter do not hesitate to call me.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stamets,  
Geologist
