OIL & GAS INSPECTOR

THE HISTORY OF THE UNITED STATES

CHAPTER I. THE DISCOVERY OF THE COUNTRY

The first discovery of the continent of North America was made by Christopher Columbus in 1492. He was an Italian who had been sailing for Spain, and he was looking for a new route to the Indies.

He sailed from Spain on August 3, 1492, and after a long voyage, he reached the island of San Salvador on October 12, 1492.

He then sailed to the island of Cuba, and then to the island of Hispaniola. He was the first European to set foot on the continent of North America.

He was followed by other explorers, such as Amerigo Vesputi, who discovered Brazil in 1498, and John Cabot, who discovered Newfoundland in 1497.

The discovery of the continent of North America was a great event in the history of the world, and it led to the settlement of the continent by Europeans.
