Dear Sir;

This is to advise that the above captioned well site is now in condition for inspection by your office.

The following listed deficiencies that were noted on a former inspection have now been corrected:

1. The well marker has been more firmly cemented in place with 3 sacks of cement.
2. A permanent well identification plate has been affixed to the well marker.
3. The pit has been filled in and leveled.
4. All junk on the location has been removed.

Trusting that with the above your files on this well can be closed and the bond for this well released.

I sincerely appreciate your patience in this matter and regret the unnecessary delay on my part in having the above taken care of for your inspection. I can assure you it will never happen again.

Yours very truly,

*L. C. Harris*
