

W. W. PORTS
GEOLOGIST—GEOLOGICAL ENGINEER
ARTESIA, NEW MEXICO

Maitto Roy

April 11, 1949.

New Mexico Oil Conservation Commission,
Artesia, New Mexico.

Dear Sirs:

Enclosed you will find Form C-105, in triplicate, to fulfill the requirement requested by you and covering the Atha Exploration Co.,- Lightcap #2, well located in Sec. 24, T7S, R28E.

You will note that the Formation Record is a copy of the Sample Analysis made by me at the time the well was being drilled. This is all the record that I have, the driller's log having been misplaced.

This should complete the requirements on this well. Should other forms be needed, please advise.

Yours truly,

W. W. Ports

W. W. Ports.
