COMES NOW, Stevens Oil Company and applies to the Oil Conservation Commission of New Mexico for an order providing authority to applicant to complete its O'Brien "C" Well #2, located in Unit D of Section 1, Township 9 South, Range 28 East, N.M.P.M., Chaves County, New Mexico as a dual completion to permit production of oil from the Twin Lakes San Andres pool and the Twin Lakes Devonian pool, and in support thereof Applicant would show:

1. Applicant is the owner of the right to produce oil and gas from the following described acreage: N/2 NW/4 of Section 1, Township 9 South, Range 28 East, N.M.P.M., Chaves County, New Mexico.

2. Applicant has completed its O'Brien "C" #2 Well located 660 feet from the north and west lines of said Section 1 as a dual completion in the Twin Lakes San Andres and Devonian pools, as shown by schematic diagram attached hereto.

3. Applicant's proposed dual completion is unconventional in that Devonian oil and gas will be produced by gas lift through 2 3/8" tubing set at 7200' with gas lift valves inside 5 1/2" casing to 2749' and 7" casing to 7295'. Applicant proposes to produce the San Andres formation through 1 1/2" tubing set between the 5 1/2" casing and 9 5/8" intermediate casing at a depth of 2600'.

4. Approval of this application will result in recovery of oil and gas that would not otherwise be recovered, will prevent waste, and correlative rights of other owners in the area will

be protected.

WHEREFORE, Applicant respectfully requests that the Commission set this matter for hearing before the Commission's duly appointed examiner, and that after notice and hearing as required by law the Commission enter its order approving an unorthodox dual completion for the Stevens Oil Company #2 O'Brien "C" located in NW/4 NW/4 of Section 1, Township 9 South, Range 28 East, Chaves County, New Mexico, and for further orders as may be proper in the premises.

Respectfully submitted,

STEVENS OIL COMPANY
