New Mexico Oil Conservation Commission
State Land Office Building
Santa Fe, New Mexico

Gentlemen:

My father, J. W. Sorrells, died on July 29, 1963, and in the normal course of settling his estate apparently there is some question related to or regarding the drilling of two shallow wells by him in 1955 in Chaves County, New Mexico. Location of these two wells is shown as follows:

1. SE/4 SE/4 Section 28-12S-28E *need C 103 & C 102*
2. NW/4 SE/4 Section 21-12S-28E *need C 103*

We were under the impression that all forms, papers, logs, etc. required by the New Mexico Oil Conservation Commission had been filed by Mr. J. W. Sorrells on the wells mentioned above shortly after they were drilled in 1955.

Would you please advise me if there is some unfinished business still pending regarding these wells? If so, would you please supply me with the information you think I need and any necessary forms that should be filled out or completed at this time?

Sincerely,

Warren D. Sorrells
