The elevation of the derrick floor above sea level is Not yet surveyed ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The Notice of Intention To Drill for this well was filed on September 22, 1955. The Original proposed casing program consisted of 500' of 13 3/8" and 1900' of 9 5/8" casing.

This Notice of Intention to Change Plans is to change the original casing program. The program has been changed to set the 9 5/8" casing at ± 1900' in the San Andres Formation and cement from top to bottom in the annulus. The string of 13 3/8" casing will be eliminated.
