17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1105.

With the help of the gas from 34-2 it seems at the present price of oil it is economically sound to produce the other two wells.

At the moment we are undecided whether to produce as in the past, by conventional pump jacks, rods & tubing, and down hole pump, or by a system of hydraulics which we are investigating. At one time Mobil Oil produced 34-1 with a Reda Pump using gas from 34-2 to run a generator for electric power to power a down hole Reda Pump. At the moment we are hopeful that hydraulics offers a more attractive means.

8. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Emma Jo Hethcox TITLE Clerk DATE 10/31/74
