OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Amarillo, Texas
(Place)

December 14, 1962
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the **Avalanche Journal Publishing Company**

L-E Ranch 12 Well No. **1** in **"C"**
(Company or Operator) (Unit)
NE $\frac{1}{4}$ **SW** $\frac{1}{4}$ of Sec. **12**, T. **11S**, R. **28E**, NMPM., **Wildest** Pool
(40-acre Subdivision) **Chaves** County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

It is requested that approval be granted to setting 60' of 13 3/8", 48#, H-40 (New) surface casing to be cemented w/ 100 sack regular in a 17 1/2" hole rather than the 400' of 8 5/8" specified in the C-101 for this well. The hole below the surface casing will be reduced to 7 7/8" (to be drilled with air). Should oil or gas production be encountered, sufficient cement will be used behind the production string (5 1/2") to adequately protect all fresh water sands. Verbal approval of this request was obtained from Mr. M. L. Armstrong on 12/13/62.

Approved **DEC 20 1962**, 19.....
