Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Atha Exploration Co. Lightcap Well No. 1 in NM  
Company or Operator Lease  
of Sec. 24, T. 7 S, R. 28 E, N. M. P. M., Wildcat Field.  
Chaves County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

## FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was drilled to a depth of 2056 feet with no commercial oil or gas found. Rotary tools were used. Water was encountered at approximately 350' and 640'. A string of 8 1/2" casing was set at 356'. It is proposed to make a water well out of the hole by setting a plug of 5 sacks of cement at 650', test the well and if the hole does not cave, to produce water therefrom without setting more casing. If, however, it is found that the hole caves, it is the intention to run a perforated liner through both sands, extending a short distance above the bottom of the casing.

Approved May 21 1948  
except as follows:

Atha Exploration Co.  
Company or Operator
