Re: Request for Allowable Change,  
L E Ranch 7 #1 C 7-11-28,  
Chisum San Andres Pool

Gentlemen:

We have noted your request for an allowable increase for the subject well on Form C-115.

Allowable increases become effective on the date the same are received in this office. However, we have tried to give you sufficient extra allowable to take care of any previous over production.

Please note that requests for allowable increases should be made on Form C-127, being certain to show the cause for the increase on the form.

If there are any questions on this matter, do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stamets  
Geologist

RLS/bh

The diagram illustrates the experimental design. It shows a sequence of events: a subject is presented with a stimulus (a box with a question mark), then a response is given (a box with a checkmark), followed by a feedback phase (a box with a question mark and a checkmark). The sequence is repeated for multiple trials.

the 1990s, the number of people in the world who are illiterate has increased from 1.1 billion to 1.2 billion. The number of illiterate people in the world is projected to reach 1.3 billion by the year 2015. The number of illiterate people in the world is projected to reach 1.4 billion by the year 2020. The number of illiterate people in the world is projected to reach 1.5 billion by the year 2025. The number of illiterate people in the world is projected to reach 1.6 billion by the year 2030. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2035. The number of illiterate people in the world is projected to reach 1.8 billion by the year 2040. The number of illiterate people in the world is projected to reach 1.9 billion by the year 2045. The number of illiterate people in the world is projected to reach 2.0 billion by the year 2050.
