Linda San Andres Pool

Mr. Pugh:

According to our well files the two above mentioned wells are plugged and abandoned.

If you are planning to re-enter the wells, you will need a one-well plugging bond for each well or a blanket bond for the state of New Mexico.

To re-enter the wells you need to file a C-101, Notice of Intent to Drill. There is a 40 acre dedication plat in the file, so if you plan to test only the San Andres formation you will not need to send in a C-102, Surveyors Plat. If you plan to complete in any other zone, you will need a plat showing the new zone.

All work done to the well must be reported on a C-103 form.

The well files will be held until we receive a notice of the bonds from Santa Fe or we hear from you.

If we can be of any assistance, please let us know.

Sincerely,

Leslie A. Clements
