Dear Mr. Cravey:

A field inspection of the subject well sites November 22, 1966, revealed the following work which must be done before plugging reports may be approved.

Harris:

Remove or cut off the three stakes in the ground near the well. Remove or bury all trash, cans, barrels, etc. on the location.

George:

Correct section no. to Section 32 on the marker. It now shows Section 33. Remove or bury all trash, wire, cans, etc. on the location.

When this work is completed, please contact this office.

Very truly yours,

OIL CONSERVATION COMMISSION
