Re: White Ranch No. 2
SE NE, 1-12S-28E
Chaves County, New Mexico

Gentlemen:

Attached are revised Form C-103's for the subject well as requested in your letter of April 24, 1969.

We declined to deepen and test the lower San Andres zones due to a title problem arising after filing our C-101, and proceeded to complete as a disposal well as originally approved by Order No. SWD-78.

We have completed the work and are now able to produce our White Ranch No. 1 and dispose of produced water underground. Since we had to shut in the No. 1 well, pending completion of the salt water disposal work, we are requesting a reinstatement of oil allowable for 60 BPD.

Please advise if further information is required.

Yours very truly,
