17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has been temporarily abandoned water injection well since August, 1968.
We would like to retain temporary abandonment status on this well in order to have an opportunity to recompleate a zone behind the pipe. Present economics have made it possible to evaluate this zone and the work should be started within 10 months.

The present condition of the well is such as to prevent damage to the producing zone, migration of hydrocarbons or water, the contamination of fresh water or other natural resources, or the leakage of any substance at the surface.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
