Re: Dale Federal Well No. 3, 33-7-26
Pecos San Andres Pool
Chaves County, New Mexico
Charles A. Lee

Dear Mr. Stamets:

In reply to your letter of May 15, regarding production from the above well, I checked with Mr. McFadin, the man who takes care of this lease for Mr. Lee, and he advised that this No. 3 well had been shut down for months because of some trouble with the pump. Last year when I started to file a form No. C-104 for this well, Mr. McFadin advised that it was not producing anything.

As to the signs, I have written Mr. Lee in California and sent a copy of your letter to him, and should have an answer in the next few days.

If I may be of any further assistance, please advise.

Sincerely,

Vina L. Briscoe
Agent
P. O. Box 579
Roswell, N. M.

P.S. I wonder if there is some way you could help me in getting my purchaser's statements from the Permian Corporation in time for me to prepare and file my C-115 reports. Any help you can give me in this respect will be greatly appreciated. A purchase was made on April 24th and I still have not received the statement.
