Re: Chaves County Dry Holes

Gentlemen:

On May 12, 1967, an inspection was made of dry holes in Chaves County. This inspection revealed certain work which must be done prior to approval of the wells' plugging reports. The work is as follows:

O'Brien A No. 1 K, 3-8-28
Fill the rat hole with dirt
or other material.

O'Brien E No. 1 I, 34-8-29
Show unit location on well marker. Finish leveling and cleaning the location.

As wind blown sand is beginning to cover the roads into the area of these wells, your speedy completion of this work is requested.

Very truly yours,

OIL CONSERVATION COMMISSION
