### THEORY OF THE CASE

The theory of the case is that the defendant is guilty of the crime charged. The evidence shows that the defendant was present at the scene of the crime and was seen to commit the act. The defendant has no alibi and no other explanation for his presence at the scene. The evidence is circumstantial but it is strong and it points to the defendant as the only person who could have committed the crime.

The evidence is circumstantial but it is strong and it points to the defendant as the only person who could have committed the crime.

The evidence is circumstantial but it is strong and it points to the defendant as the only person who could have committed the crime.
