Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Clary & Ruther No. 1, State Well No. I. in NW NW
Company or Operator Lease
of Sec. 36, T. 23 South, 3 East, N. M. P. M., _____ Field.
Dona Anna County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We have carried our 12 $\frac{1}{2}$ inch Casing as far as we can and we have 506 feet of it in the hole, we are going to cement it at the bottom and the top with 50 sacks of cement and we have purchased a setting string of 10 inch casing which will be on the location Monday and we intend to run it as soon as the cement is set.

Clary & Ruther

[illegible]

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were incubated in the presence of 100 mg/ml of gentamicin and 100 mg/ml of rifampicin. The concentration of the *Agrobacterium* suspension was 10⁶ cells/ml. The transformation efficiency was determined by the number of transformants per 10⁶ cells. The data are the mean \pm SD of three independent experiments.
