Re: O'Brien Well No.1-G,  
25-8-29, Chaves County,  
New Mexico

Dear Mr. Sweeney:

On June 7, 1967, this office received a partial plugging report for the subject well. The report showed the top most plug at 1375 feet and that the well was being turned over to the rancher as a water well. A letter attached to the report stated that an "Affidavit of Responsibility Conversion to Water Well" would be filed soon. To date this affidavit has not been received.

Please furnish this office with two notarized copies of the required affidavit at your earliest convenience. If said affidavit is not filed, the remaining hole will have to be plugged and a regulation marker set.

Very truly yours,

Oil Conservation Commission
