We tried to pull tbg on this well, but the air clutches on our pulling unit burned/weakened when we pulled stuck tubing on the Hanson water well that we plugged last year. Our unit is being repaired but clutch plates and springs are back ordered. Parts are promised later this week. The pulling unit will go to the Diablo wells first as soon as it is ready.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
