Clements Buffalo Valley Com.
No. 1-D 1-15-27
Buffalo Valley Penn Pool
Chaves Co., New Mexico

Dear Sir:

This has reference to Mr. Joe Ramey's memorandum to all operators, dated June 22, 1978, regarding Commission Rule 402 which requires 24 hour shut in wellhead pressure tests on all Southeast New Mexico wells unless exceptions have been granted.

Exceptions to this order were granted for the subject wells by your letter of July 22, 1977. A copy of this letter is enclosed for your convenience.

We assume these exceptions are renewable and are therefore requesting exception to Commission Rule 402 due to the anticipated expense the company would incur to return these wells to producing status after a shut in.

Yours very truly,

R. L. Robertson
Production Engineer II
