Section 6-5-27, Chaves
County, New Mexico

Gentlemen:

On September 14, 1970, an inspection was made of the site of the subject plugged and abandoned well. Said inspection revealed there to be a length of drilling line left at the well site lying along the road to the location. Rule 1103, B(4), Commission Rules & Regulations, requires the removal of all junk from the well site before Form C-103, Plugging Report, may be approved.

Please advise this office when the line has been removed and the plugging report will be approved.

Very truly yours,

OIL CONSERVATION COMMISSION
