Gentlemen:

We are returning the enclosed forms on the above well for some additional information as noted below.

1. Show the WOC time and results of casing test on Form C-103.
2. Complete the Formation Record for the interval 998 to 1703 on Form C-105.

Further, the plugging report is not acceptable as it does not agree with the plugging program as discussed with Mr. Owny on March 13, 1970. Therefore re-submit Forms C-103 on the plugging of this well showing the approved program as mentioned above including the depth at which the plugs were spotted.

If you have any questions concerning this matter please feel free to call me.
