Gentlemen:

On January 14, 1972, an inspection was made of the site of the subject plugged and abandoned well. Said inspection revealed the following items which require correction before the plugging report may be approved.

1. Pits must be filled and levelled.
2. All junk, pipe and tank must be removed or buried.

Please notify this office when the work has been done so that we may reinspect the location.

Very truly yours,

OIL CONSERVATION COMMISSION
