

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

ROY MCKAY
No.1 Isler
SESW 6-7S-27E
Chaves Co., N.M.

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation.

1. EXISTING ROADS:

- A. Exhibit "A" is a portion of a road map showing the location of the proposed well as staked. The well is approximately 30 miles northeast of Roswell, N.M.
- B. Directions: Travel about 2 miles north from Roswell City Limits on Hwy. 285. Turn right on Hwy. 70 and go 13.8 miles. Turn north on County road and go 9.8 miles to Cooper Ranch gate. Go 2 miles east. Turn southeast and go 1.1 mile. Go northeast 0.7 mile to location.

2. PLANNED ACCESS ROAD:

- A. Length and Width: The access road will be 3.8 miles long. It will be bladed to 12' road bed with 2' shoulders.
- B. Surfacing Material: It is not anticipated that the road or pad will need surfacing. If surfacing proves to be necessary, caliche will be obtained from a commercial source.
