Re: Salt Water Disposal Well

Gentlemen:

Your letter of August 3, 1979, set out an inspection date of September 19, 1979, for the Stevens Oil Company O'Brien "D" No. 1, Section 12, Township 9 South, Range 28 East, Chaves County, New Mexico.

This well has been shut-in since December 19, 1977, at which time cumulative of 64,850 barrels had been injected into the well. The injection pressure at that time was 450 pounds.

Stevens Oil Company proposes to temporarily abandon this injection well until such time as produced water in the field might be sufficient to justify re-instituting injection.

We would appreciate your cancelling the inspection schedule for September 19, 1979, on the basis of the above information.

Yours very truly,

STEVENS OIL COMPANY

Donald G. Stevens
