Gentlemen:

On January 25, 1972, an inspection was made of the site of the subject plugged and abandoned well. Said inspection revealed the following items which require correction before the plugging report may be approved.

1. Marker not complete. Needs unit letter of footage.
2. All junk must be removed or buried.
3. Pits must be levelled and cellar filled.

Please notify this office when the work has been done so that we may reinspect the location.

Very truly yours,
