Re: Multi Point Back Pressure Test
Due - BLACKROCK OIL COMPANY -
Bates McIntyre Federal No. 1
Unit H, Section 9, T-6-S, R-27-E
Haystack Cisco Gas Pool
Chaves County, New Mexico

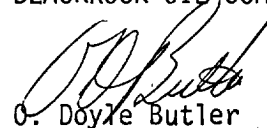

Gentlemen:

With reference to the above noted test which is past due, it is respectfully requested that an exception to Rule 401 be granted. This well currently produces from 300 to 450 MCF of gas daily plus approximately 450 barrels of water daily. To maintain deliverability, we flow the well wide open to the sales line and when it loads with water, we intermitten to our salt water disposal. It would be impossible to stabilize the well at various flow rates.

Your consideration of this request is appreciated.

Yours very truly,

BLACKROCK OIL COMPANY
